To Whom It May Concern:

By this letter, I would like to attest that I have purchased two different surface plasmon resonance (SPR) devices from Reichert Instruments, Inc., most recently their dual channel SPR system. We have found these instruments to be of significant value in the conduct of our research because they are sensitive, stable, and reliable. In addition, we have consistently found the Reichert technical support staff to be responsive, responsible and extremely helpful. Hence, I am completely satisfied with my experience with Reichert, Inc., their products, and their personnel. Please feel free to contact me by any of the means indicated at the masthead of this letter if you would like any further information.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Jeremy Thorner".

Jeremy Thorner  
Professor of Biochemistry and Molecular Biology
